

## CORPORATE PROFILE

PEOPLE,  
PRODUCTS  
& VALUES YOU  
CAN DEPEND  
ON

### Altec Headquarters

For more than 85 years, Altec has been a company committed to excellence.

Our industry-leading products consistently raise the bar through innovative product design, integrated safety features, and continued dedication to total customer satisfaction.

It's the relationship with our customers that drives our business and enables our success.

Headquartered in Birmingham, Alabama, Altec promotes an environment built on teamwork where people are our greatest strength and our customer is the main focus.

A leading equipment and service provider for the electric utility, telecommunications, contractor, lights and signs, and tree care markets, we provide solutions to meet your needs in more than 100 countries throughout the world

### Values & Vision

Altec continues to pursue a singular vision: To be recognized by customers as the preferred supplier of products, services, and solutions in all markets we serve.

Our values sustain that vision, our goals build upon it, and our associates help us to achieve it. Altec's values are the cornerstone of our corporate culture and every associate is considered an integral part of Team Altec.

Altec Values (in Alphabetical Order)

- Customer first
- Enjoyment of work
- Family
- Financial stability
- Integrity
- People are our greatest strength
- Quality
- Spiritual development
- Teamwork

85+ YEARS  
DISTRIBUTION  
NETWORK IN 100+  
COUNTRIES

### Diversity & Inclusion

Altec recognizes that a diverse and talented workforce is a key competitive advantage. Our business success reflects in the quality and skill of our people.

Inclusion means understanding, valuing and respecting workplace diversity, so that no associate is excluded from the workplace nor the opportunity to develop skills and talents consistent with our values and business objectives.

Altec Industries, Inc. and its affiliates are equal opportunity employers.

### Our Promise

At Altec, we listen and create solutions for the challenges our customers face and remain committed to total customer satisfaction in all aspects of our business.

However, to be truly successful, we believe there must be a set of clear and understood values. We consider the Altec Values to be critical to our long-term success. It allows us to create an environment that is focused on team, not individual success.

By following these same basic principles, Altec has grown to become an innovative, financially sound company that is leading the industry and setting the standard of excellence in design, manufacturing, sales, and service.

120,000 major items  
of fleet and tools  
to service your needs.

Safe. Reliable. Compliant.

**About Altec Australia**

Altec Australia is a wholly-owned subsidiary of Altec Worldwide, LLC.

Our full line of products range from aerial devices with superior side reach and digger derricks with industry-leading safety features, to boom truck cranes designed with versatility and strength and wood chippers built for durability and performance.

Our standard features coupled with competitive specifications provide the flexibility to select the equipment needed for your work.

**Engineered to order**

We import, carry out compliance engineering, assemble, distribute, service and provide after-market accessories for our fleet and competitor equipment.

All of our models are certified to the Australian standards and feature the latest technology, offering smooth, safe, and reliable operation.

Our units have flexibility built into their design to allow variation of the layout and accessories, without compromising on efficiency or safety of our trucks.

**Services**

- New and used equipment
- Rebuilds
- Servicing
- Supply parts, tools and accessories
- Fleet Hire

Purchasing from us means you are working directly with us in all aspects of the product including: fleet operations and management, sales, engineering, installation, service, parts, warranty, repairs and equipment disposal.

Our network of EWP and Crane service centres in every State of Australia including Regional Victoria, to provide fast and convenient service.

In addition to custom built units, we also have a complete line of stock units ready for quick delivery.

**Customers**

Our products and services help satisfy the needs of various industries such as:

- Power Utilities
- Vegetation Contractors
- Infrastructure Contractors
- Construction and Civil Works
- Transportation Companies
- Councils, Road, Rail & Water authorities
- Mine and Electrical asset owners
- Telecommunications Companies

### Hire and Lease Options

No matter how big or small your Elevated Work Platform requirements are, we can meet your needs. We provide cost effective solutions for all your EWP requirements.

Our range of the latest quality equipment together with outstanding competitive rates is available for both hire and lease.

We provide short and long term hire options from 1 week to multiple years.

### Spare Parts

We carry a full range of major parts for our EWPs, Cranes, and Crane Borers.

If a part is not stocked, we can usually provide a quick turn around from either the USA or Italy.

### EWP and Crane Rebuilds

We undertake compliance testing and rebuilds for all makes and models of EWPs and Crane Borers.

We provide the following services:

- Strip down and rebuild your unit or replace with high quality parts to comply with all relevant standards
- Service and repair all truck mounted EWPs, self loading cranes and crane borers
- Complete maintenance management
- On-site service and repairs
- All workshop repairs
- Major inspections to AS 2550.10 and A2550
- Services offered throughout Australia

Comprehensive service & maintenance capability offered nationwide.

Committed to Excellence

### Nationwide Service Providers

Our service teams are specialists in servicing all our elevating work platforms, crane borers and vehicle loading cranes. Our service providers are specialists in structural, hydraulic, and electrical repairs.

Our service network honours Altec's warranty obligations and also provides on-site and after hours service.

### Safety Commitment

Health and Safety, safeguarding the environment and providing quality outcomes for our customers are deeply embedded in our compliance culture.

Our compliance systems and processes are certified to industry standards.

Our values and behaviours underpin our relationships with our customers, employees, and our community.

We are committed to working in partnership with community groups and other stakeholders to look for innovative ways to solve problems and issues that may arise.

### Service and Maintenance

A 24/7 telephone fault diagnostic service is available to our clients alongwith in-house mobile service capability.

Large inventory of service parts available at all times. Servicing provided for EWP's and Borers includes:

- 3-Monthly, 6-Monthly and Annual Inspections
- 10-Year Rebuilds
- HV Electrical Testing
- Stability Testing
- Creep Testing
- Electrical & Mechanical Diagnostics
- 24/7 Breakdown Service
- On-Site Repairs and Inspection

### Locations

• **DANDENONG OFFICE AND PLANT**

44 Gaine Road, Dandenong South VIC 3175  
P: +(613) 8788 8000 | F: +(613) 8677 2805

• **LEONGATHA PLANT**

106 Horn St, Leongatha 3953  
P: +(613) 5667 3000

Engineered tools & equipment for overhead & underground works

## Authorised Distributorship

In addition to offering the full line of Altec products, we are also an authorised distributor for the following top brands:

### PM CRANES

A leading Italian manufacturer of truck mounted hydraulic cranes. On the market for over 50 years, PM Group S.p.A. is the leading Italian manufacturer of truck mounted hydraulic cranes.

Building a strong tradition of technology and innovation has allowed PM to establish sound professional relations and win over ever-larger market shares in Italy and abroad.

With head offices located in San Cesario S/P, in the Italian province of Modena, PM also operates in foreign markets through direct sales offices in North America, Argentina, Chile, Mexico, England, France, Spain, Germany, Russia, and Singapore.

At present, the PM product range includes over 60 series, with over 450 possible configurations.

### TIMBERLAND

A global leader in the integrated design & manufacture of engineered winches, hoists, sheaves, derricks, and tensioning equipments.

Timberland Equipment has been designing and manufacturing specialized material handling equipment for the construction, resource, and energy sectors since 1947.

Power utilities have recognized Timberland as the preferred source for the tension stringing equipment and procedures they need to install transmission and distribution lines under the widest possible range of conditions.

### REELSTRONG

A manufacturer and supplier of custom reel, Pole, and Gas utility trailers featuring pinless and securelock technologies.

Reelstrong uses ultra-rugged patent pending pinless and cotterless safety locks and hardware making our designs the hands-down safest, easiest-to-use and lowest maintenance cost choice in the industry.

### GENERAL MACHINE PRODUCTS

A manufacturer of a wide range of products for the telecommunications, power utility, and cable television industries, and the contractors who serve them.

GMP's total capabilities include the development, prototyping, and manufacturing of Aerial Cable Construction Equipment & Tools, Copper & Fiber Cable Placing Equipment, Manhole & Duct Tools, Installer's Hand Tools, Warning Signs, Tents and Tarps, Winches, Motor Vehicle Accessories, Specialty Hardware, and Supplies.

# POWERFUL

# INNOVATIVE

Our vehicles are designed & built according to relevant Australian and International Standards.

We offer whole-of-life commitment to customers

## EQUIPMENT RANGE

- ELEVATED WORK PLATFORMS (10 - 70m height)
- POLE BORERS (5 - 20 tonnes)
- TRUCK MOUNTED CRANES (1.5 - 210 tonnes lifting capacity)
- HV INSULATED WASHERS
- PRESSURE DIGGERS
- WOOD CHIPPERS (6" - 12")
- LINE CONSTRUCTION VEHICLES
- TRAILERS
- CABLE PLACERS
- HYBRID VEHICLES

## EWP RANGE

- INSULATED AERIAL PLATFORMS
- NON-INSULATED AERIAL PLATFORMS
- OVERCENTRE AERIAL PLATFORMS
- NON-OVERCENTRE AERIAL PLATFORMS
- BACKYARD TRACK MOUNTED UNITS

## HIGH QUALITY

PM Cranes can be installed onto any size truck. Built with high-tensile materials and new electronic controls.

Powerful. Compact. Lightweight.

## HIGH TENSILE

High quality designed & engineered platforms for overhead work

### PM CRANES RANGE

#### SMALL CRANES

Lifting capacity up to 3 tonne.  
Range includes from 2.8 to 3.9 P.

#### LIGHT CRANES

Lifting capacity up to 14.2 tonne.  
Range of includes from 4 up to 14 E.

#### MEDIUM CRANES

Lifting capacity up to 21.3 tonne.  
Range includes from 16 up to 23.5 SP.

#### HEAVY CRANES

Lifting capacity up to 84 tonne.  
Range includes from 41 S up to 85 SP.

#### SUPER HEAVY CRANES

Lifting capacity up to 210 tonne.  
Range of includes from 100 to 210 SP.

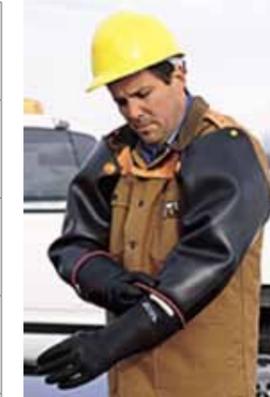

#### ACCESSORIES

Complete range of parts and accessories available for even more applications.

### TOOLS RANGE

HV AND LV GLOVES

HV AND LV SLEEVES

LIVE LINE EQUIPMENT

DIRT MATS

STRINGING BLOCKS

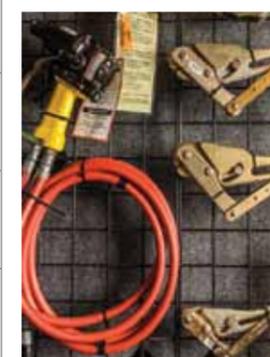

FIBRE OPTIC TOOLS

REELS

BLOWERS

WINCHES

PUSHERS AND BLOWERS

EWP & CRANE PARTS

## Insulated Elevated Work Platforms

**11m**  
**AT30G**  
 - Side Reach of 7.3m  
 - Platform Capacity of 181kgs  
 - 180° Platform Rotator

**13m**  
**Van Mounted EWP**  
 - Side Reach of 7.9m

**13m**  
**AT37G Combo**  
 - Side Reach 8.6m  
 - Combination EWP/Tipper  
 - 180° Platform Rotator

**13.3m**  
**AT37G & AT40P**  
 - Side Reach of 8.6m  
 - Less than 6.5m long  
 - 180° Platform Rotator  
 - 1 & 2 man Platforms

**15.5m**  
**TA45S**  
 - Side Reach of 9.3m  
 - 180° Platform Rotator

**18m**  
**TA55**  
 - Side Reach of 11.7m  
 - Platform Capacity of 300kgs  
 - Material Handling Capacity of 450kgs  
 - 180° Platform Rotator

**26.5m**  
**A Class**  
 - Side Reach up to 15m  
 - Platform Capacity of 350kgs  
 - Material handling capacity of 450kgs in all positions  
 - Overcenter options

**38m**  
**AH 125**  
 - Side Reach of 15m  
 - Platform Capacity up to 950kgs  
 - Material handling capacity of 680kgs

**50m**  
**AH 150**  
 - Side Reach up to 21.5m  
 - Platform Capacity up to 950kgs  
 - Material handling capacity up to 950kgs

## Pole Borers / Diggers

**DB37**  
 - Hook height of 11.2m  
 - Side Reach of 9.2 m  
 - Digging Radius up to 6.9m  
 - Travel Width of 864mm

**DM45**  
 - Hook height of 13.5m  
 - Capacity of 6.8T single, 11T double  
 - Optional radio controls and EWP bucket

**D4050**  
 - Hook height of 15.1m  
 - Capacity to 6.8T single, 13.6T double  
 - Optional radio controls and EWP Platform

**DT80**  
 - Hook height up to 32m  
 - Capacity up to 27T  
 - Optional radio controls

**HD35A**  
 - Digs through rock or granite  
 - Digs up to 2m dia hole  
 - Digging depth to 10m  
 - 40,000Nm Torque

**Hybrid Trucks/Green Fleet**  
 Significantly reduce:  
 - Fuel consumption  
 - Smog-forming emissions  
 - Environmental noise

**EWP / Cable Placer**  
 - No stabilisers  
 - Drive the chassis with boom extended  
 - Ideal for stringing NBN or ABC  
 - Working height of 11m  
 - Side reach of 9m

**Line Construction Vehicles**  
 - Designed by linesmen for linesmen  
 - Built per specifications  
 - Optional crane

## Specialty Trucks

## Specialty Trucks

- HV Insulated Washers**  
 - Washer nozzle height to 44 m  
 - Water tank capacity to 7,571 l  
 - Ergonomically-designed operator work station  
 - Quick, easy set-up  
 - Automatic low water shutdown

- HV Washer Trailers / Skids**  
 - Water tank capacity to 6,057 l  
 - Useable with a trailer, skid or EWP  
 - Onboard resistivity monitoring

- Track Mounted (Prinoth)**  
 - EWPs up to 50 m  
 - Borers up to 24 m

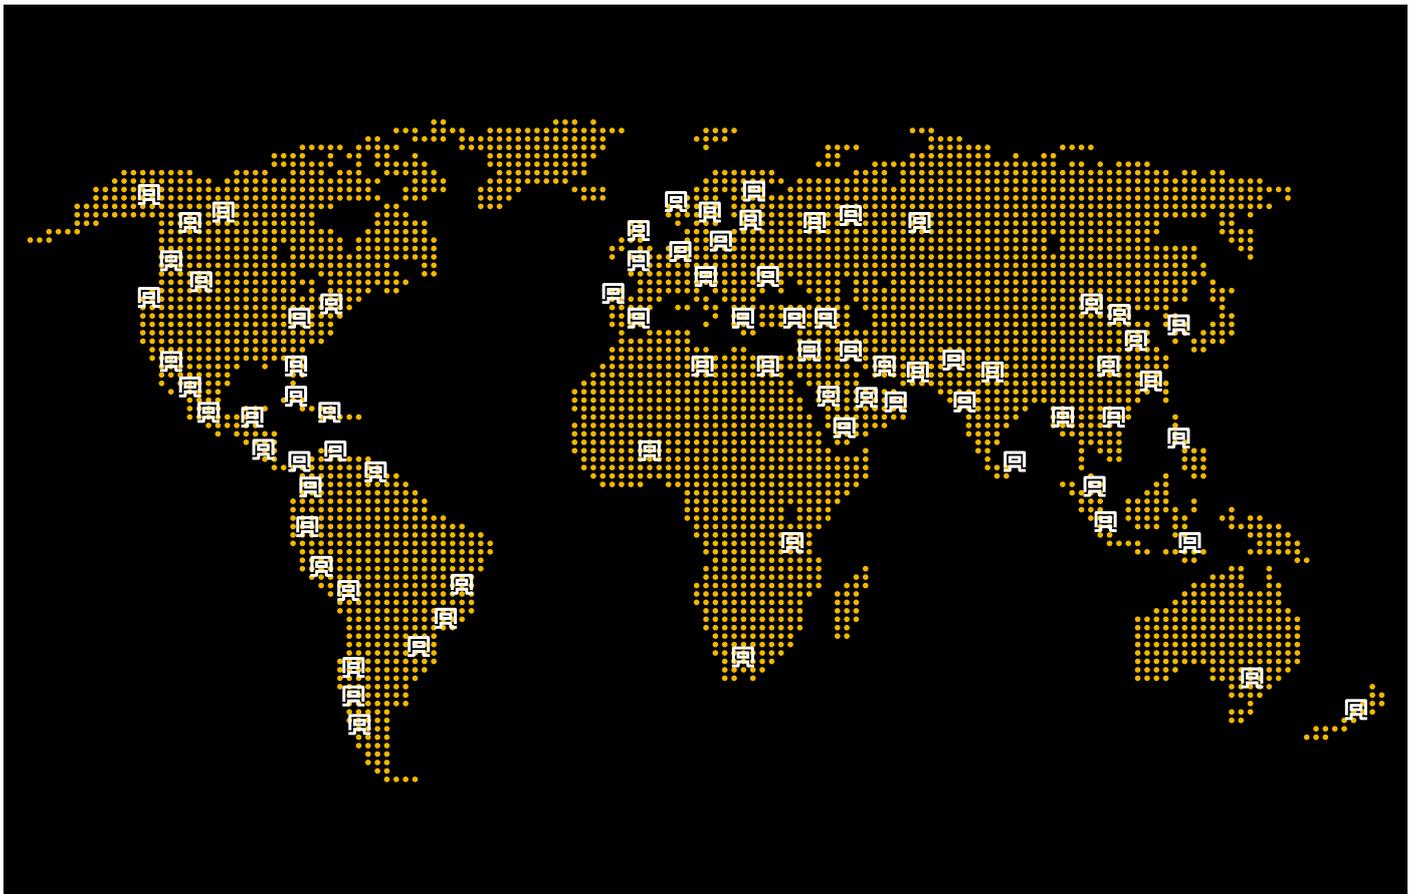

- Chippers**  
 - Range of 6" - 12"  
 - Available with self-feed drum chipper option

## PM Cranes

- Small, Light, Medium & Heavy Cranes**  
 - Truck mounted hydraulic cranes for the utilities industry  
 - 1.5T to 210T Lifting Capacity  
 - Range includes over 60 models and over 450 possible configurations

## Non-insulated Aerial Platforms

- High quality platforms for overhead work**  
 - Self Propelled Platforms up to 23m  
 - Truck mounted platforms up to 62m
